Title : WAASFE-Wide Area Application Services for Field Engineers

Version : Demo

1.Which setting should be used in the "Boot from" filed in the virtual blade configuration when an operating system is first installed through an CD ISO image onto a virtual blade?

- A. /local1/vbs/win2k8.iso
- B. WAAS /local1/loca/vb folder
- C. Floppy Disk
- D. CD-ROM
- E. hard disk
- Answer: D

2.Exhibit:

You work as a network engineer at Your company. You study the exhibit carefully. When troubleshooting video licensing on a WAE, this Central Manager output is displayed.

Which two steps should be taken to enable the video license? (Choose two.)

- A. Restart the WAE
- B. Select the Enterprise Check Box
- C. Select the Video Check Box
- D. Select the Virtual-Blade Check Box

Answer: BC

3.Which command verifies that a WAE in-line card is intercepting traffic from the correct VLANs?

- A. show wccp services
- B. show wccp vlans inline
- C. show int inlinegroup x/y
- D. show ip access-lists

Answer: C

4.In which two ways will you register and activate a WAE to the Central Manager? (Choose two.)

- A. WAE(Config)#cms enable do active
- B. The auto-activate icon in the Central Manager
- C. WAE(Config)#cms enable
- D. The quickstart setup procedure

Answer: CD

5. Which three must be configured when you configure an edge print queue? (Choose three.)

- A. WAFS edge service
- B. EPM Policy
- C. Printer Name
- D. device URL

Answer: ACD

6.Exhibit:

You work as a network engineer at Your company. You study the exhibit carefully.

A WAE in your environment is experiencing no HTTP acceleration. What is the problem according to the output from the Central Manager?

- A. HTTP and Video Accelerators cannot be enabled at the same time
- B. The HTTP Accelerator is not enabled
- C. DRE eliminates all need for HTTP acceleration
- D. The Enterprise license is not installed

Answer: B

- 7. How to verify that the WAE has joined a Microsoft Windows domain correctly?
- A. Click the Show Authentication Status button in Central Manager
- B. Use the Windowsnetstat command
- C. Use the Windowsnbtstat command
- D. Execute the show windows-domain command on the WAE

Answer: A

8. Within Windows Server on WAAS, what are the Cisco-supported features? (Choose all that apply)

- A. Active Directory
- B. DNS
- C. Windows Printing
- D. DHCP
- E. Internet Explorer
- F. FTP services
- G. Windows Media Streaming

Answer: ABCD

9.Exhibit:

You work as a network engineer at Your company. You study the exhibit carefully.

The following diagram displays the Cisco WAAS configuration for your customer. Which WCCPv2 interception configuration should be applied to interface Serial0?

- A. Redirect in / service group 62
- B. Redirect out / service group 62

C. Redirect in / service group 61

D. Redirect out/service group 61

Answer: A

10. How many baseline device groups can be configured for the acceleration feature set?

- A. Three
- B. One
- C. As many as needed
- D. Two
- Answer: B

11.Your customer has recently completed a large expansion of one of their regional offices. They have discovered that the WAE-512-2GB Edge WAE in that office has begun passing through some TCP connections without optimizing those connections. What two actions would solve the problem? (Choose two.)

- A. Add more memory to the WAE
- B. Add another WAE-512 edge WAE
- C. Upgrade to a WAE-612 or WAE-7326
- D. Bundle the WAE interfaces into a PortChannel

Answer: BC

12.What important troubleshooting information will you draw for the Video Accelerator from the WAE#show stat accelerator video?

- A. Whether or not the WAE(Config)#accelerator video enable command has been issued
- B. Troubleshooting of the Video Accelerator can only be done through the Central Manager GUI
- C. The total Non-Windows Media and Non-Live Video Streams
- D. The license status of the Video Accelerator

Answer: C

13. How to monitor optimization statistics for a given application across multiple WAE devices?

- A. Create a separate application traffic policy for each application
- B. Create a location group for all WAE devices on which that application is optimized
- C. Ensure that each application resides on a different subnet
- D. Create a device group for all WAE devices on which that application is optimized Answer: D

14.Exhibit:

GIACO DIAIEMA	Wide Area	System Status Devices: 🗖 🕬 🕬				
	Application Services • Devices •	Devices Device Groups → Lo		rvices		
Devices 📲 🕅 Device Na		Services	IP Address	CIMS Status	Device State	
M1	CN	M (Primary)	10.10.10.10	Online	0000	
🛒 CM2	CN	/ (Standby)	10.10.10.11	Online	0000	
CORE1	Co	ore	2.2.2.2	Offline	0009	
M EDGE-NM	Ec	lge	10.10.100.2	Online	0000	
EDGE1	Fo	lae	1.1.1.2	Online	0000	

Based on the following exhibit. Which two are the possible reasons the CORE1 WAE might be displayed as "Offline"?

- A. The Central Manager service is disabled
- B. The WAE is powered off
- C. The WAE is configured in the same VLAN as the server nodes
- D. The HTTPS service is disabled

Answer: AB

15. The Cisco WAE Appliances provide a unified platform for hosting Cisco application acceleration and WAN optimization solutions. Your customer complains that traffic has never been received by the remote WAE device after deploying Cisco WAAS by use of WCCPv2 in an off-path configuration. Which two parameters should be verified? (Choose two.)

- A. Routing Configuration
- B. Router IP Address
- C. WCCP Status
- D. Service group redirection

Answer: CD
